

# We Deliver.

## Safe. On Time. On Budget.

C&W Transportation is headquartered in Fort Collins, Colorado, along the I-25 corridor. We provide value-added transportation and distribution services to businesses across the Rocky Mountain and portions of the Mid-America regions.

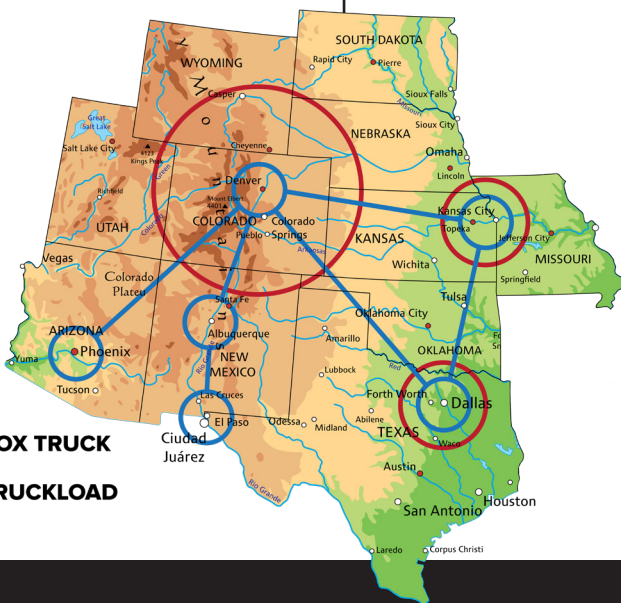

We are all about building long-term, lasting relationships based on loyalty and dedication to the mutual success of our customers and our organization. Honesty, professionalism, and obsessive customer service are the fundamentals of how we do business every single day.

### Safety is Part of Everything that We Do

Safety is our obvious top priority. Our professional drivers will ensure your delivery is done safe and sound.

### On Time with 24/7 Customer Support

We are committed to do everything it takes to deliver on time and have live support all along the way.

 BOX TRUCK  
 TRUCKLOAD

## Dedicated Deliveries (Keystop)

We make unattended deliveries, as well as unload and place orders in your warehouse exactly where you want them. Our trucks run directly from your warehouse to your location, store, or outlet. This eliminates central terminals or dock transfers, and the risk of damaged and lost freight.

## Full Truckload (FTL)

Either you have enough freight to fill a full truckload, or you have a partial load but you prefer a dedicated truck. Full truckload is often chosen when businesses have 10 pallets or more to ship, when they have high risk packages, or when time is an issue.

## Less-than-Truckload (LTL)

If you need smaller freight (less-than-truckload) picked up from multiple locations and/or delivered to multiple points, C&W can create customized delivery services to meet your needs.
